* "The Henkel Glossary of Fluorescent Minerals"

** Fluorescent mineral photography issue, including 10 color slides (35 mm)

† Phosphorescence

All back volumes of the Journal of the FMS are available. Some may be reprints. Vol. XI (1982) also contains a ten year index of subjects, titles, and authors. The *UV Waves* of May/June 1996 contains a list of articles for *Journal* issues from 1972 to 1992. All volumes (except Volumes I, II, VII, XV, and XVIII) also contain from two to six 35 mm color slides of fluorescent minerals with descriptions.

All back issues of the *UV Waves* are available at \$1.00 each (or any six issues for \$5.00) plus postage. An index to the *UV*

Waves for 1971 through mid-1987 is available for \$1.00. Please send a self-addressed stamped envelope. An up-to-date list of articles may be printed soon in the *UV Waves*.

The FMS logo appears in black & white in the *UV Waves*. In full color it uses black, blue, yellow, red, and green. The following products are available with this logo:

FMS logo patch (embroidered sew-on), full color: U.S. \$4.00 postpaid.
